

The Boy Scouts of America appreciates you and your fellow Frontliners who are working tirelessly to keep our families safe. 

#ScoutingAtHome

### Operation Frontliner

Cradle of Liberty Council is encouraging its families to show their appreciation for the medical professionals who are working tireless hours under challenging conditions to help keep our communities safe. A Scout is Cheerful and we're encouraging you and your Scouts to take a moment to show they care by expressing a hopeful message on social media or with a hand-written message to a hospital near you.

#### **How to join in this Good Turn:**

1. Complete the short survey located at [colbsa.org/frontliner](https://colbsa.org/frontliner) confirming which hospital/provider you unit plans to adopt.
2. Make contact with that hospital/provider by phone or email to confirm a point of contact/preferences for your Scouts' cards.
3. Provide contact information and the template above to your Scouts and parents and ask them to post photos to social media channels.
4. Consider other ways that your unit might be able to support the hospital during this crisis while observing current guidance from local, state and federal agencies.
